Re: Ore crushing site.

We have filed for Small Mine Site (5 Acres) in Section 9. (See attached map.) We will haul ore to a privately owned 160 acres block of land. Located in Section 1 and 12. forty (40) acres in Section 1 -T19S -R24E -SW1/4, SE1/4, SLB&M, one hundred twenty (120) acres in Section 12 - T19S-R24E, W1/2, NE1/4, NW1/4, SE1/4. (See attached map.) We request permission to construct a crushing plant and a Non Toxic Recovery System with Tailing ponds. We estimate using ten (10) gpm of water for this operation. We hope to have this plant operating by October 15,2000. We plan to have three full time employees and two contractors. Our desire is for this operation to grow into a large mining operation.

If there are other permits, fees or questions about this plan please contact me at:
